**Summary** — Full Stack Developer with hands-on industry experience in building scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in developing REST APIs, implementing authentication, and integrating frontend with backend systems. Experienced in working on real-world applications, handling business logic, and delivering user-friendly, production-ready solutions.

## Skills

- **Frontend** : HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Tailwind CSS, Bootstrap, Responsive UI Design
- **Backend** : Node.js, Express.js, Java, Core Java, OOPs, JDBC, Servlets (Basic), REST API Development, MVC Architecture
- **Database** : MongoDB, MySQL
- **Dev Tools** : Git, GitHub, Postman, VS Code, Jira, Figma
- **Authentication and Security**: JWT Authentication, Role-Based Access Control.
- **Other**: Good at Prompting to get the best solution possible.

## Experience

### Idice System And Technologies Pvt. Ltd. (Indore)

Feb 2026 – Present

Full Stack Developer -

#### Project: Daily-Log (Task Management System)

- Working on DailyLog – Task Management System for tracking employee tasks and productivity.
- Developed responsive UI using React.js, Tailwind CSS, improving user experience and performance.
- Integrated REST APIs for task management, user operations, and reporting modules.
- Implemented features like task creation, editing, validation logic, and role-based access.
- Collaborating with team using Git for version control and code management. Worked on bug fixing, performance improvements, and enhancing UI/UX.

#### Project: QualifAI Interview Platform

- Developed and maintained an AI-powered interview and candidate assessment platform.
- Built responsive user interfaces using React.js and Tailwind CSS for candidates, recruiters, and administrators.
- Developed backend APIs using Node.js and Express.js for interview management, user authentication, and report generation.
- Implemented role-based access control, JWT authentication, and secure API integrations.
- Worked on role-play interview modules, candidate evaluation workflows, and performance analytics dashboards. Integrated video recording, interview feedback, and reporting features to improve recruitment processes.

### ASORG SOFTTECH INDIA PVT. LTD. (Remote)

Nov 2025 – Feb 2026

Full Stack Developer -

#### Project: ICON HOSPITAL (Hospital Management System)

- Worked on a real-world Hospital Management System used to manage OPD/IPD workflows, treatment sheets, pharmacy, billing, and reporting modules.
- Developed and enhanced React.js UI components for patient records, treatment sheets, date-range medical reports, and invoice modules following real hospital workflows.
- Implemented form validations, business rules, and edge-case handling based on real-life healthcare scenarios (medicine dosage units, time slots, locked historical records, invoice formats).
- Identified functional and UI issues through manual testing, documented bugs with proper reproduction steps, and collaborated with backend and QA teams to ensure fixes. structured test cases for critical modules to validate data accuracy, workflow consistency, and user roles.

## Education

### Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV), Bhopal

2024 – 2026

Master of Computer Applications (MCA)

CGPA: 8/10 Post-Grad.

### Devi Ahilya Vishwavidyalaya (DAVV), Indore

2020 – 2023

Bachelor of Arts (BA)

CGPA: 7.38/10 Graduation.
