Indore, Madhya Pradesh, India – 453111

PROFESSIONAL SUMMARY

I am a motivated and detail-oriented Computer Science student with a solid foundation in programming languages like C, C++, and basic Python, along with hands-on experience in full-stack development utilizing the MERN stack. My passion lies in creating efficient, user-friendly web applications and tackling real-world problems through data structures and algorithms. I have a proven ability to develop functional projects such as a weather detection app and a resume builder, and I'm eager to contribute my technical skills to a dynamic software development team while continuously growing in the tech industry.

TECHNICAL SKILLS

Programming	Python, JavaScript, C, C++ (DSA)
AI / ML Frameworks	LangChain, LangGraph, Conversational AI, Multi-Agent Systems
QA Engineer Tool	Playwright Testing, Types of Testing
Frontend	React.js, Context API, React Hooks, HTML, CSS
Backend & APIs	Node.js, Express.js, REST APIs
Databases	MySQL, MongoDB
Core CS	DBMS, OS, OOP, Data Structures & Algorithms
Tools	Git, , VS Code, Thunder Client
Cloud	Cloud Computing (NPTEL + silver)

WORK EXPERIENCE

Gen AI internship

- Working as a software development intern contributing to real-world product development and engineering workflows.

PROJECTS & TECHNICAL EXPERIENCE

Intelligent Multi Language Translating System | *LangChain*

- Built a real-time multilingual translation system using Prompt, LangChain and LLM APIs.
- Developed an interactive Streamlit UI for instant text input and translation output.
- Integrated RAG pipeline to improve context-aware translation accuracy.
- Applied Python backend for API handling and translation workflow.

SkillHub – Learning Management System (LMS) | *MERN Stack, JWT, REST APIs*

- Developed a full-stack LMS with JWT-based authentication and role-based access control (Admin/Instructor/Student).
- Built scalable REST APIs using Express.js and designed MongoDB schemas for courses, users, and enrollments.
- Implemented React Hooks and Context API for efficient frontend state management and real-time UI updates.
- Tested and validated all APIs using Thunder Client, ensuring reliability and performance.

Airbnb Clone – Accommodation Booking Platform | *MERN Stack, Cloudinary, REST APIs*

- Developed a full-stack accommodation booking platform with property listing, search, filtering, and booking management.
- Built interactive UI using React.js with dynamic filtering, date selection, and map-based property browsing.

- Implemented Cloudinary integration for image upload and CRUD operations for property listings.
- Ensured robust error handling, input validation, and seamless UX across the MERN architecture.

EDUCATION

Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore B.Tech – Computer Science & Engineering CGPA: 7.91	2022 – 2026
Springwood School Neemuch (CBSE) Class XII – Senior Secondary (PCM)	2022
International Sai Shankar Public School Neemuch (CBSE) Class X – Secondary	2020

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL Cloud Computing – Elite + Gold Certificate, (Score: 75/100)
- NPTEL Internet Of Things– **Elite + Silver Certificate** (Score: 77/100)
- Universal Certificates in C++ and DBMS

PERSONAL DETAILS

Date of Birth: 1 July 2003 | **Gender:** Male | **Languages:** English, Hindi
Strengths: Self-Motivated, Detail-Oriented, Adaptable, Quick Learner, Consistent, Focused

DECLARATION

I hereby declare that all information provided above is true and correct to the best of my knowledge and belief.

Place: Indore
