 - Reception handling
-

Technical Skills

- Programming Languages: Basic knowledge of JAVA and PYTHON
 - Web Technologies: Basic Knowledge of HTML, CSS, JavaScript
 - Other Skills: Algorithms, Data Structures, OOP Concepts
-

Projects

Weather App

Description- I have developed a weather web application that delivers real-time weather information for any city entered by the user. The application integrates with API to fetch accurate data and displays details such as temperature, humidity, and overall weather conditions. The interface is designed to be simple, responsive, and accessible across devices, ensuring a smooth user experience. Technologies used include HTML, CSS, JavaScript.

Student information website

Description - Developed a web application that provides information about hotels, hostels, schools, colleges, and restaurants in Indore for visitors unfamiliar with the city. Designed an intuitive and user-friendly interface to help users easily explore and navigate available options. Implemented using HTML, CSS, JavaScript ensuring responsiveness and accessibility across devices.

Online Voting System

Online Voting System: Developed a secure web-based Online Voting System using HTML, CSS, JavaScript, PHP, and MySQL. The system allows users to register, log in, cast a single vote, and view election results, while providing an admin panel to manage users, candidates, and voting records.
