PROFILE

Frontend Developer with 2+ years of experience in building responsive web applications using HTML, CSS, JavaScript, and React.js. Experienced in AI-assisted development workflows using ChatGPT and GitHub Copilot for faster development, debugging, code optimization, and UI implementation.

EDUCATION

Rajiv Gandhi Proudhyogiki Vishwavidyalaya

Ujjain, India

Bachelor of Engineering in Computer Science

2019 – 2023

SKILLS

Technical: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design, Tailwind CSS, Material UI, Git & GitHub, REST API Integration, Figma To Html, Psd To Html.

Tools: ChatGPT, Claude, Gemini, GitHub, Copilot

EXPERIENCE

Webstrot Technology

Dewas, India

Fronted Developer

- Developed responsive web applications for desktop, tablet, and mobile devices.
- Converted UI/UX designs into high-quality, reusable frontend components Show qualities like problem solving,
- Integrated REST APIs and managed dynamic data rendering.
- Collaborated with designers and developers to deliver projects on time.
- Fixed client-reported bugs and improved application performance.
- Implemented modern UI frameworks including Tailwind CSS and Material UI
- Utilized AI tools for faster prototyping, code generation, debugging, and development workflows.
- Ensured clean, maintainable, and scalable code following industry best practices.

Chalo Online

Indore, India

Fronted Developer

2/03/26 To Present

- Developed responsive web applications for desktop, tablet, and mobile devices.
- Converted UI/UX designs into high-quality, reusable frontend components Show qualities like problem solving,
- Integrated REST APIs and managed dynamic data rendering.
- Collaborated with designers and developers to deliver projects on time.
- Fixed client-reported bugs and improved application performance.
- Implemented modern UI frameworks including Tailwind CSS and Material UI
- Utilized AI tools for faster prototyping, code generation, debugging, and development workflows.
- Ensured clean, maintainable, and scalable code following industry best practices.

PROJECTS

Exhibitor portal and Snbc (Finance)

Technologies Used: HTML5, SASS, CSS3, Bootstrap 5, JavaScript, jQuery

Project Description:

- Converted Figma designs into pixel-perfect and fully responsive web pages.
- Developed Login, Registration, Add User, Search, and other multiple pages with modern UI/UX practices.
- Built the application using a **component-based architecture** for better reusability and maintainability.
- Created reusable UI components such as forms, buttons, cards, tables, modals, and navigation elements.
- Implemented mobile-first responsive design for desktop, tablet, and mobile devices.
- Ensured consistent styling, spacing, typography, and color schemes according to Figma specifications.

- Optimized layouts using Bootstrap Grid and custom CSS
- Added interactive UI behaviors using JavaScript and jQuery.
- Maintained cross-browser compatibility and clean semantic HTML structure.
- Improved code reusability and scalability through modular component development.

React CRUD Application

Technologies Used: React.js, Axios, React Bootstrap, JSON Server, JavaScript, HTML5, CSS3

- Developed a responsive CRUD (Create, Read, Update, Delete) application using **React.js**.
- Integrated **Axios** for API communication and data management.
- Built user-friendly interfaces with **React Bootstrap** components.
- Added **search and filter functionality** to efficiently manage and retrieve user records.
- Developed forms for creating, updating, viewing, and deleting user information.
- Utilized **component-based architecture** for reusable and maintainable code.

React Admin Dashboard

Technologies Used: React.js, Tailwind CSS, Axios, JavaScript (ES6+), HTML5, CSS3

- Developed a responsive **Admin Dashboard** using **React.js** and **Tailwind CSS**.
- Created reusable and modular React components for scalable application development.
- Integrated APIs using **Axios** for dynamic data fetching and management.
- Built interactive dashboard layouts with cards, tables, and data visualization sections.
- Designed a fully responsive user interface optimized for desktop, tablet, and mobile devices.

React UI Component Library (ThemeForest Approved)

Technologies Used: React.js, Bootstrap 5, Sass (SCSS), JavaScript (ES6+), HTML5, CSS3

- Developed a collection of reusable **React UI components**, including Accordions, Testimonials, Buttons, Headers, Footers, and other website sections.
- Created **10+ design variations** for each component to support different project requirements.
- Built components using **React.js, Bootstrap 5, and Sass (SCSS)**.
- Designed components with a focus on reusability, maintainability, and responsive design.
- Followed modern frontend development practices and component-based architecture
- Successfully developed a **ThemeForest-approved** React component package meeting marketplace quality standards.
