FULL STACK DEVELOPER | ANGULAR | JAVASCRIPT | NODE.JS | PHP | MYSQL

PROFESSIONAL SUMMARY

Full Stack Developer with 4+Years of hands-on experience designing, developing, and optimizing scalable web applications using **React, JavaScript/TypeScript, PHP (Laravel), Node.js, MySQL, and Java/Spring Boot**. Strong background in **UI component engineering, API integration, reusable libraries creation, dashboard development, and performance optimization**. Demonstrated expertise in building data-driven applications using **Highcharts**, improving workflow automation, and enhancing usability across complex enterprise platforms. Skilled in writing clean, maintainable, modular code and collaborating with cross-functional teams to deliver high-quality, production-ready solutions.

CORE SKILLS

Frontend: React, Angular, JavaScript, TypeScript, HTML5, CSS3, Responsive UI

Backend: Node.js, PHP (Laravel), Java, Spring Boot

Database: MySQL, SQL, Data Modeling

Tools & Libraries: Highcharts, OtitiPrime, REST APIs, Git, Postman

Concepts: Microservices, MVC Architecture, Performance Optimization, CI/CD

Others: Jira, Agile/Scrum, Photoshop, API Security, Cloud Basics

PROFESSIONAL EXPERIENCE

Parkers Consulting & Venture Pvt. Ltd — Full Stack Developer | Dec 2025 | Bhopal, India

Engineered end-to-end full-stack modules using **Angular + Laravel**, improving deployment efficiency and reducing operational delays by **40%** for enterprise clients.

Developed modular and reusable UI components, improving code maintainability and reducing new feature development time by **30%**.

Optimized workflow automation tools and backend logic, reducing manual processing time by **40%** and improving data accuracy.

Prime BPM — Full Stack Developer | Jun 2025 – Nov 25 | Bhopal, India

Built and launched client-facing dashboards with real-time updates, increasing customer engagement and reporting clarity by **60%**.

Enhanced API performance by re-architecting request/response structures, improving load time and data processing efficiency by **35%**.

Implemented secure authentication workflows and improved role-based access handling for large enterprise user groups.

Collaborated closely with UI/UX, QA, and DevOps teams ensuring smooth releases, faster deployments, and **zero critical defects** in production.

Guava Trees Softech Pvt. Ltd — Junior Software Engineer | Mar 2022 – May 2025 | Bhopal, India

Highcharts & Data Visualization

Designed and optimized complex Highcharts dashboards to support large datasets with smooth rendering and minimal latency.

Customized multiple chart types (line, bar, scatter, pie, heatmaps) aligned with analytical and financial business requirements.

Implemented dynamic data-binding logic improving real-time visual updates with minimal CPU/GPU overhead.

Built reusable chart configuration templates to standardize visualization across teams and reduce rework time.

OtitiPrime Development

Built reusable and modular Angular components, reducing development efforts and ensuring UI consistency across the platform.

Implemented advanced filtering, dynamic dropdowns, and customizable options improving user interaction and data navigation.

Collaborated with API teams to ensure seamless integration, stable data flow, and improved error handling mechanisms.

Orchestra Platform

Developed investment platform enhancements including **form validations, table rendering, sorting, and pagination**, improving user accessibility.

Improved API integration and data manipulation logic, increasing response efficiency by **30%**.

EDUCATION

Bachelor of Mechanical Engineering

UIT Barkatullah University, Bhopal | 2016 – 2020

12th (Science) – Takshashila Public School | 2014 – 2015

10th – Takshashila Public School | 2012 – 2013

CERTIFICATIONS

Angular – Professional Certificate

JavaScript / HTML / CSS – Professional Certificate

React – Professional Certificate

Node.js – Professional Certificate

REWARDS & RECOGNITION

Mr. GT Connect Award – Recognized for exceptional technical aptitude, problem-solving, and delivering consistent high-quality work.

Best Performance in Training – Awarded for outstanding commitment, strong learning capability, and surpassing training expectations.
