Technical Skills

- **Languages & Frameworks:** Java (17/21), Spring Boot, Spring MVC, Spring Security, PHP, WordPress CMS, Angular, Hibernate/JPA
- **Web Database:** JavaScript, MySQL, HTML5, CSS3, AJAX, jQuery, RESTful APIs
- **Tools & Technologies:** Docker, Kafka, Git, Maven, Apache, Composer, JSON, PhpMyAdmin
- **AI Productivity Tools:** Cursor AI, Claude Code, GitHub Copilot, ChatGPT
- **Core Competencies:** Full-Stack Web Development, Automation Scripts, Custom Plugins/Themes, Database Optimization

Experience

PixelNX PVT LTD

Associate Software Developer

Dewas, India

July 2024 – Present

- **Architecture Backend:** Designed and maintained scalable enterprise web systems using Java/Spring Boot and robust custom business logic using Core/Procedural PHP.
- **Automation Optimization:** Developed custom JavaScript and PHP scripts to automate heavy multi-record data entries, improving data synchronization and workflows.
- **API Security:** Built secure RESTful APIs adhering to SOLID principles, integrating strict role-based authentications and security protocols to prevent injection flaws.
- **Content Management:** Developed tailored WordPress elements, plugins, and responsive templates by utilizing native hooks, actions, and custom relational data schemas.
- **Modernization:** Migrated legacy modules to modern frameworks (Spring 6 / Java 17 and PHP modern standards), reducing runtime security vulnerabilities and boosting server processing speeds.

PixelNX PVT LTD

Software Developer Intern

Dewas, India

April 2024 – June 2024

- Gained hands-on experience by delivering backend business logic and interactive module updates across dual-stack (Java and PHP) internal client web applications.
- Integrated dynamic asynchronously-loaded interfaces using AJAX, jQuery, and structured MySQL relational database configurations.

Projects

Dialogix – Next-Gen AI Chatbot Solution

Tech Stack: Spring Boot, Spring AI, Google Gemini API, Java, HTML5, JavaScript, AJAX

- Designed a high-concurrency context-aware AI conversational application utilizing Spring AI architectures with active session management and persistent server logs.
- Structured secure, scalable backend REST endpoints ensuring modular decoupling between conversation handlers and response layers.

Custom Leave Management Sales Automation Suite

Tech Stack: Core PHP, WordPress Engine, MySQL, JavaScript, Bootstrap

- Developed a dual-utility module consisting of a core procedural PHP data engine for handling complex structural computations automatically and an integrated secure administrative dashboard.
- Deployed the platform logic into a standalone custom WordPress plugin using native hooks, custom relational tables, and access privileges to handle organizational leave workflows smoothly.

Education

Sushila Devi Bansal College of Technology

Bachelor of Technology in Information Technology (B.Tech IT)

Indore, India

2020 – 2024

Achievements and Certifications

- Certificate in Full-Stack Backend Architecture – Great Learning
- Solved 150+ algorithmic and data structures challenges on GeeksforGeeks
- Certified in Programming Basics (C) – IITBombayX, Grade A+
