PROFESSIONAL SUMMARY

Python Developer with 3+ years of experience building secure and scalable web applications using Django, Flask, and FastAPI. Proficient in RESTful and GraphQL API development, database management (MySQL, PostgreSQL, MongoDB), and frontend tools including HTML, CSS, and Bootstrap. Experienced in microservices architecture, Docker, and Linux environments. Strong team player focused on writing clean, efficient, and maintainable code.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML, CSS, GraphQL

Frameworks: Django, Flask, FastAPI, React, Bootstrap

Databases: PostgreSQL, MySQL, MongoDB

ORMs: Django ORM, SQLAlchemy

Tools & Platforms: Git, Docker, Linux, Postman, Swagger

Testing: Pytest

WORK EXPERIENCE

BestPeers Infosystem Pvt. Ltd. (CMMI Level 3) | Software Developer July 2024 – Present

- Developed and maintained RESTful APIs and backend services using Python, Flask, FastAPI, Django, and GraphQL.
- Improved application performance and scalability through optimized backend architecture.
- Collaborated with cross-functional teams to deliver high-quality, maintainable code.

MINDIII Systems Pvt. Ltd. | Jr. Software Developer November 2023 – June 2024

- Developed backend modules and integrated RESTful APIs using Python Flask framework.
- Enhanced application response times and overall reliability through code optimization.

ThoughtWin IT Solution Pvt. Ltd. | Trainee Software Developer June 2023 – October 2023

- Built basic web applications and RESTful APIs using Django and Flask.
- Strengthened practical backend development skills through hands-on project work.

PROJECTS

OaPay.co – Construction Tender Management System | Tech: Python, Django, JavaScript, HTML, CSS, Bootstrap

- Built a construction tender management system using Django, including modules for deadlines, work schedules, and equipment tracking.
- Developed the frontend with JavaScript, HTML, CSS, and Bootstrap for intuitive user interaction.

Superdesk – Content Management Platform | Tech: Python, Django, Flask, Microservices, MongoDB, Pytest

- Worked on a content management platform for news agencies, handling backend development, bug fixes, and feature integration using Django and Flask.
- Focused on performance optimization and writing clean, testable code with Pytest.

Butterfly – Medical Imaging Platform | Tech: Python, Flask, Microservices, PostgreSQL, Pytest

- Improved a medical imaging platform enabling X-ray uploads via mobile and specialist review workflows.
- Implemented user authentication, role management, and a microservice-based architecture for scalability.

The Tech Switch – RESTful API Service | Tech: *Python, Flask, MySQL, Postman, Swagger*

- Built RESTful APIs with Flask and JWT authentication for both admin and user roles.
- Tested and documented APIs using Postman and Swagger; handled database interactions with MySQL.

EDUCATION

Bachelor of Engineering – Computer Science & Engineering

2014 – 2018

RGPV University, Madhya Pradesh

Higher Secondary Certificate (12th)

2013 – 2014

Government Nutan H.S. School

Secondary School Certificate (10th)

2011 – 2012

Government Nutan H.S. School

CERTIFICATIONS & TRAINING

- Python Developer Training (Flask & Django) – ThoughtWin IT Solution Pvt. Ltd.
- Android App Development Training – BIYBYTE Software Technology Pvt. Ltd.
- Android Internship – Pahal Techno Vision
