

TARUN PATIDAR

Full Stack Developer | React.js · Next.js · Node.js · MongoDB · TypeScript

+91 9644318558 | tarunpatidar223@gmail.com | Indore, MP, India | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 2.5+ years building production-grade MERN and Next.js applications across enterprise ERP, no-code AI platforms, and microservices-based systems. Skilled in React.js, Next.js (SSR/SSG), Node.js, Express.js, and MongoDB, with hands-on experience in RESTful API design, JWT/OAuth authentication, RBAC, and query optimization. Built component libraries that cut UI dev time by 35% and ERP workflows that reduced manual overhead by 40%. Comfortable owning features end-to-end in Agile teams.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js (SSR/SSG, App Router), TypeScript, JavaScript (ES6+), React Hooks, Context API, HTML5, CSS3, Tailwind CSS, Responsive & Cross-browser Design
- **Backend:** Node.js, Express.js, RESTful APIs, Microservices Architecture, Payload CMS
- **Database:** MongoDB, Mongoose, Query Optimization, Schema Design
- **Auth & Security:** JWT, OAuth 2.0, Role-Based Access Control (RBAC), API Security
- **Tools & Practices:** Git, GitHub, Vercel, Netlify, Postman, Agile/Scrum, Code Review, Debugging & Performance Optimization

PROFESSIONAL EXPERIENCE

Full Stack Developer | Inavsys IT Consultant (Navsant Group)

Oct 2025 – Mar 2026

- Architected and delivered a production-grade ERP system spanning HR, inventory, and operations modules, reducing manual process overhead by ~40% for end clients.
- Built Lancing, a freelancing marketplace platform, end-to-end using Node.js, Express.js, and MongoDB — covering client-freelancer authentication, gig/job posting workflows, order lifecycle management, and user profiles.
- Optimized database queries and API response pipelines using MongoDB indexing and query restructuring, achieving measurable latency reductions across high-traffic endpoints.
- Implemented JWT-based authentication and RBAC, securing sensitive data, while collaborating with design, QA, and product teams in Agile/Scrum sprints to consistently meet delivery targets.

Full Stack Developer | RentPrompts

<https://rentprompts.com>

Aug 2024 – Sep 2025

- Led frontend development of a no-code AI platform enabling non-technical users to build and share AI-powered apps, now live in production with real users.
- Designed and built a reusable Tailwind CSS component library of 30+ components, cutting UI development time by ~35% across new feature releases.
- Integrated multiple REST APIs to power real-time AI interactions, and improved Lighthouse performance scores with responsive design and lazy-loading for full cross-device compatibility.

Frontend Developer | CoderFarm

Oct 2023 – Jun 2024

- Built and shipped responsive React.js components for Har Ghar Solar, a government solar-initiative platform reaching thousands of public users.
- Created a reusable component library that standardized UI patterns and reduced rework, and integrated frontend views with backend APIs for real-time data rendering.

Frontend Developer Intern | Ypsilon IT Solutions

Mar 2023 – Aug 2023

- Developed responsive UIs using HTML, CSS, JavaScript, and React.js, and integrated frontend views with backend REST APIs for dynamic data handling.
- Gained hands-on exposure to production debugging, code reviews, and Agile workflows within a professional team setting.

KEY PROJECTS

AI Interview & Resume Analyzer • Next.js · Node.js · Express.js · REST APIs · AI Integration

<https://ai-interview-agent.netlify.app/>

- Built an end-to-end AI system that parses resumes, generates role-specific interview questions, and delivers structured feedback via an ATS analyzer that scores resumes against job descriptions.
- Designed async AI API orchestration logic on the backend, achieving sub-3-second response times for resume analysis under real user load.

Job Portal — Microservices Architecture • React.js · Node.js · Express.js · MongoDB · Tailwind CSS · JWT

<https://jobportall.vercel.app/>

- Architected a decoupled job portal using microservices, with independently deployable services for authentication, job posting, and application tracking.
- Built a fully responsive React.js + Tailwind CSS frontend with real-time job search and filtering, and implemented JWT authentication with role-based access control for recruiters vs. applicants.

EDUCATION & CERTIFICATIONS

Master of Computer Applications (MCA) — Dr. Preeti Global University

In Progress

Bachelor of Computer Science (B.Sc.) — ISBA Institute of Professional Studies, Indore

2023
