## Profile Summary

---

Java Full Stack Developer with 4 years of experience in developing scalable enterprise applications using Java, GWT, Spring Boot, REST APIs, JDBC, SQL and Microservices architecture. Experienced in banking and e-governance domains, with expertise in backend development, API Integration, database optimization, and full SDLC lifecycle.

## Skills

---

- **Programming Languages:** Java (Java SE 8), C++, C
- **Frameworks Libraries:** Spring, Spring Boot, GWT, Microservices, JSP/Servlets, jQuery, ZK Framework
- **Web Technologies:** HTML5, CSS3, JavaScript
- **APIs & Backend :** RESTful APIs, SOAP Web Services, JDBC
- **Databases:** MySQL, SQL
- **DevOps Tools:** Git, Maven, Postman, Jenkins, Apache Tomcat, TortoiseSVN, JIRA, MasterCraft (TCS Bancs)

## Professional Experience

---

### SNB(Saudi National Bank)

04/2024 - present

- Technologies Used: Java, SOAP API, GWT, MasterCraft, JDBC, SQL
- Collaborated with Business Analysts to convert requirements into technical specifications for Change Requests (CRs).
- Developed SOAP-based APIs for enterprise integration, ensuring reliable data exchange
  - \* Optimized SQL queries, improving response time and performance
  - \* Reduced manual effort by ~30% using MasterCraft
  - \* Built backend modules using Java and JDBC for secure data handling
- Utilized MasterCraft for modeling enterprise transactions (BT ET), reducing manual configuration time by 30%.
- Implemented secure JDBC connections with PreparedStatement for database interactions.
- Created optimized SQL queries and stored procedures for high-performance data retrieval.
- Developed scalable front-end and back-end modules using GWT and Java.

### DGCA eGCA (e-Governance of Civil Aviation)

03/2023 - 04/2024

- Built and maintained full-stack web applications using Java, Spring, JSP/Servlets, and MySQL.
- Cooperated with Business Analysts to gather and analyze client requirements for application features and enhancements.
- Developed RESTful APIs and CRUD operations for client-server communication.
- Designed responsive UI interfaces with HTML5, CSS3, JavaScript, and jQuery.
- Created unit test cases and performed debugging to ensure system reliability.
- Delivered standalone applications tailored to business needs.

### Lloyds Banking Group

10/2022 - 02/2023

- Developed secure and scalable Java-based web applications aligned with compliance standards.
- Integrated modules with Microsoft Dynamics 365 CRM using custom plugins and Ribbon Workbench.
- Customized CRM workflows and command bars for improved usability.
- Collaborated using JIRA for sprint planning and task tracking.

## **Achievements**

---

- 68th Rank in CodeChef December Challenge.
- 5 Star at Hacker Rank and 3 Star at Codechef.
- Qualified in G.A.T.E. 2022.
- Solved 450+ DSA problems on different platforms like LeetCode, CodeChef, GeeksforGeeks HackerRank

## **Education**

---

- 2022 : Institute of Engineering and Rural Technology, Prayagraj - B.Tech, 85.5
- 2017 : Senior Secondary(ISC) Sacred Heart Academy
- 2015 : Secondary(ICSE) Sacred Heart Academy
